THE ANNUAL CYCLOPÆDIA

AND

REGISTER OF IMPORTANT EVENTS,

OF THE YEAR 1862:

EMBRACING

POLITICAL, CIVIL, MILITARY, AND SOCIAL AFFAIRS; PUBLIC DOCUMENTS; BIOGRAPHY; STATISTICS; COMMERCE; FINANCE; LITERATURE; SCIENCE; AGRICULTURE; AND MECHANICAL INDUSTRY.

THIS is a Cyclopædia of what took place during the year 1861. It comprises not only all the subjects peculiar to a general work, but also the political and military events of the conflict in the United States. It shows the political principles involved, with the arguments of their respective advocates and opponents; the movements of the leaders of secession, from their first acts to the close of the year; including the proceedings, step by step, of each of the Southern States; the organization of the Confederate States; the principles upon which that organization was founded; their civil and commercial regulations; the efforts to fill their treasury and to organize and equip vast armies; the counteracting movements of the United States; the organization and equipment of its army and navy; together with all the original documents, from the Messages of the respective Presidents; the instructions of Cabinet officers; the Messages and Proclamations of Governors; the important acts and debates of the United States and Confederate Congresses; the acts of State Legislatures; the Proclamations of Commanding Officers; the contributions of men and money from each State, North and South; and the details of every battle and every skirmish involving a loss of life. The events connected with Privateering, suspension of the writ of Habeas Corpus, Martial Law, Blockade, &c., are related in detail.

Other pages of the volume embrace discoveries in Science; Geographical Explorations; Mechanical Inventions and Improvements, with illustrations; Commercial and Financial movements during the year; the Progress of Literature, and Biographical Sketches of the distinguished men who died.

The contents are arranged in an alphabetical order, and accompanied by a most extensive and complete Index.

The volume is in the style of the New American Cyclopædia, having not less than 780 pages, royal octavo.

The work is published exclusively by subscription, and, in exterior appearance, is at once elegant and substantial.

ELECTRO-MAGNETIC MACHINES

DR. S. B. SMITH'S

DIRECT AND TO-AND-FRO CURRENT

ELECTRO-MAGNETIC MACHINES.

This is the only Electro-Magnetic Apparatus which imparts a true *Sensational Direct Current*, in the United States or elsewhere. It is of strong power. The zincs never require cleaning. Runs at an expense of one cent a week. Price, with a single battery, $12; with a double, $15. Sent by express to all parts where the express runs.

As there are Electro-Magnetic Machines which claim to have five or six *Different Currents*, I would observe that there is *but one current* in Electricity. There are three modifications of this current, and various sub-modifications; it may run direct, or it may run to-and-fro, but it is still one and the same current. If any one wishes to possess a Machine that has six currents, as they are called, his wish can be easily gratified. Any of the ordinary Magnetic Machines can be converted into Six-Current Magnetic Machines by a very simple contrivance. It is done by connecting one of the posts of the helix which is in connection with the fine wire, by means of a short piece of thin wire, with one of the posts in connection with the coarse wire; then, place a finger on the other post which is in connection with the fine, and touch, at the same time, any other post on the helix with another finger, or with the other hand, and you get all the shocks or currents of the wonderful Six-Current!!! Machines.

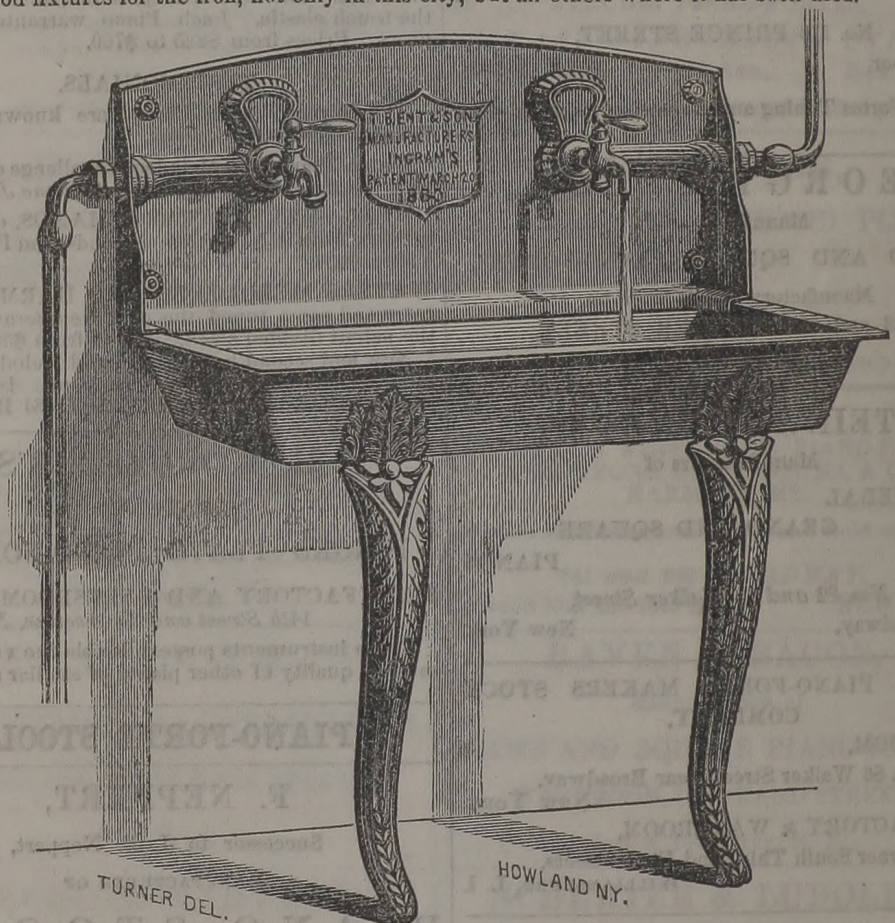
PLUMBERS.

WAR DECLARED ON BUGS AND ROACHES.—When the Iron is brought to bear on the enemy, it has to evacuate or total destruction follows; so it is found in the use of the Iron Sinks and Backs, (through which the water is drawn.) On the Bugs and Roaches in kitchens where they have been found to exist in the old way of putting up Sinks and Water Boilers with wood, not only in the kitchen are they found but all over the house, which to lovers of cleanliness has been one general complaint in city houses. The Iron Sink and Water Back we here offer to the Public, is found not only to drive out the Bugs and Roaches, but to keep them out of all houses where they have been in use. The first cost of the Iron over the wood is no more, as we have made many improvements in the putting up of the iron work ready for use, which is here shown by the following cut and directions for putting up the same. We deem it of but little importance to make a great display of certificates of which many could be had, as to its good effect in clearing houses of Bugs and Roaches; but leave it in the hands of the Public, and those who have changed the old wood fixtures for the iron, not only in this city, but all others where it has been used.



The above engraving represents a Sink put up, and ready for use, with a cast iron wall plate and pipes cast on. This plate is fastened to a brick or stone wall by plugging the wall, and using two inch wood screws with a good bed of putty between the wall, back and clat. By this means, the back or wall plate is fitted tight to the wall, allowing no space for roaches and other vermin—generally so numerous around sinks—to accumulate. We have also made a new style of sink to be used with this back. The back of the sink being made straight allows it to fit close to the wall, it being supported by a cast iron flange, which is bolted to the wall in the same manner as the back. The above Sinks, with the Excelsior Wall Plate, are for sale by all Plumbers.—THOS. BENT & SON, Globe Iron Foundry, 210 to 216 East 26th Street, New York. (Sole Manufacturers under Patent Right.)

WILSON'S

STREET AND AVENUE DIRECTORY

OF THE

CITY OF NEW YORK.

(CORRECTED MAY 1, 1863.)

Entered, according to Act of Congress, in the year 1863, by H. WILSON and JOHN F. TROW, in the Clerk's Office of the District Court of the United States for the Southern District of New York.

EXPLANATION.

If you wish to find the location of any dwelling-house or store,—for instance, No. 80 **ALLEN** Street,—on consulting the Street Directory (*see* **ALLEN**) you will observe that 68 Allen is on the right hand of that street and on the corner of Grand, and 86 Allen is on the right-hand corner of Broome; hence the desired number, 80 Allen, will be on the right-hand side of Allen Street, between Grand and Broome.

Or suppose you are going up Broadway and wish to take a cross street, so as to call at 236 Hudson Street, on examination (*see* **HUDSON**) of the corner numbers in Hudson Street, you will observe that 230 Hudson is on the corner of Broome; hence by passing from Broadway through Broome Street to Hudson, you are near to the desired number, 236.

NOTE.—Such of the streets as are divided into East and West, will be found in this work under E. and W.

BEST AMERICAN IRON;

the plates most exposed to the extreme heat are made extra heavy; the Oven Doors are made to swing, and not liable to break, as drop doors; having a long circulation of heat around each oven, they bake equal to a brick oven, require but a small quantity of fuel, and are therefore not so apt to get out of repair.
